Introduction

Welcome to Maritime Services International

Leading the field in marine surveying, investigations and consultancy services,
MSI is a firm of independent specialists

Established in 1992 we have expanded and developed to service a global client base within the marine industry, from offices in both the United Kingdom and New Zealand.

With an established reputation for delivering a quality service on an international level, our highly qualified, knowledgeable and experienced team offer their expertise on all sizes and types of vessel.

We have developed long standing relationships with our clients, due to our ability to identify clearly their needs and then to exceed their expectations. We pride ourselves on our accuracy and the speed of response that we offer.

Our surveyors are well-qualified ex-seafarers and industry professionals with global experience and a working knowledge of all types of marine vessels. Clients benefit from a breadth of experience, all survey reports being internally reviewed before completion.

Our Philosophy

- We take our responsibilities seriously
- When engaged by clients our surveyors establish their specific requirements and requests at the outset
- Surveyors keep in close contact with clients throughout, by telephone and/or e-mail and sending interim survey reports when necessary
- Reports are submitted swiftly after the completion of surveys, all staff being aware of clients' needs for information
- Reports are accurate and concise, accompanied by digital photographs and diagrams when necessary and backed up by factual documentation
- Electronic reporting ensures the swift transmission of information to anywhere in the world
- All MSI staff endeavour to be approachable, friendly and flexible to clients' needs in the course of providing a professional and efficient service
- We do not accept work where a conflict of interest might arise.
- Our reports are confidential to our clients

Surveying

- Structural Condition
- Damage
- Cargo
- Hull and Machinery
- Casualty
- MCA Compliance Surveys
- Pre-purchase

A Complete Service

MSI offers a complete surveying service for all types of floating vessels and structures

From the tiniest dinghy to the most expensive superyacht, the smallest tug to the largest tanker, the simplest jack-up rig to highly complex FPSOs, our team of highly experienced surveyors, marine engineers and naval architects are on hand to respond to your survey requirements.

We carry out surveys for a number of clients including insurers, P&I Clubs, underwriters, prospective purchasers, pre and post charter clients and financial institutions.

MSI is available to carry out surveys in the following areas:

- Structural Condition
- Damage
- Cargo
- Hull and Machinery
- Casualty
- MCA Compliance Surveys
- Pre-purchase

Our surveying service includes pre inspection and surveys to hull and machinery, ships of all types, marine machinery, cargo both ashore and on board, dock structures and all types of fixed and floating objects to ascertain the overall condition.

Once the survey is complete our clients receive comprehensive reports that are internally reviewed and tailored to their specific requirements.

Consultancy

- Risk Assessment
- Dry Docking
- Project Management
- Feasibility Studies
- Naval Architecture
- Film Industry

Comprehensive Specialist Consultancy

MSI provides a comprehensive specialist consultancy service to
the maritime industry

All our reports are tailored to our clients' specific requirements. We have expertise in the following specialist consultancy services:

- Risk Assessment
- Dry Docking
- Project Management
- Feasibility Studies
- Naval Architecture
- Film Industry

By drawing on the specific skills, expertise and knowledge of various members of our team we can provide a broad mix of capabilities.

Risk Assessment

MSI offer a full risk assessment and valuation service primarily for insurance purposes. A full and comprehensive risk assessment enables all parties to consider accurate values at risk, and coverage limits.

Dry Docking

MSI have the knowledge and expertise to help you minimise your dry docking time and cost; assisting with technical specifications, tendering bids, evaluations, site supervision and cost negotiation on completion.

Project Management

The MSI project management team can advise on new build, conversion or repairs. From the initial discussions and project start-up through to project planning, contract negotiations, plan approval, site supervision up to the trials and the handover. MSI will manage each project every step of the way on new build, conversion or repairs.

Feasibility Studies

We have a proven track record in analysing a countless number of marine opportunities and producing feasibility studies and assessments which provide clear guidance for a client for their projects market potential.

Naval Architecture

MSI provide a design and support service which covers all areas of naval architecture, from concept design and feasibility studies, through to development and procurement.

Film Industry

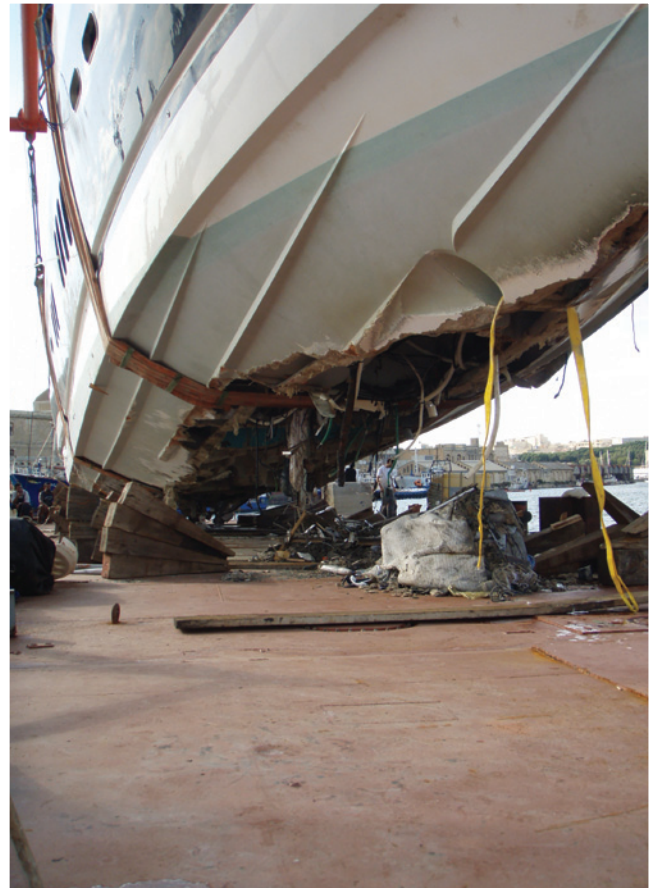

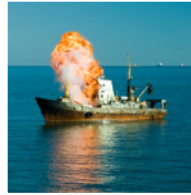

In November 2010 the Maritime and Coastguard Agency (MCA) issued a notice (MGN 421) to media and similar organisations wishing to use ships and fishing vessels in their productions.

"The MCA recommends that production companies employ their own consultants to assist in ensuring that the legal requirements are met."

MSI has established relationships with the MCA to assist the process of achieving legal compliances in unusual circumstances. We can help with the location topography at site, provision of experienced marine personnel, marine plant and equipment, vessel design and modification and vessels going to sea that have no classification.

Investigation

- Collisions and Groundings
- Cargo Damage
- Hull and Machinery
- Total Loss
- Marine Pollution
- Salvage and Wreck Removal
- Safe Berths and Ports
- Damage to Fixed and Floating Objects

Detailed Objective Inquiry

We offer investigation expertise in all areas of marine claims relating to ships, personnel and cargoes

The investigation of claims undertaken range widely from cargo damage and marine accidents through to personal injuries and fatalities.

We have experience and expertise in operating at the casualty site, providing technical reports and support and if necessary providing expert witness for issues that result in proceedings at court or arbitration.

All of our investigations ascertain the cause, nature and extent of damage and are reported clearly, concisely, objectively and swiftly.

Our damage reports are normally requested by clients looking to use our extensive experience. We are able to provide possible cause of damage in a quick and timely manner. We understand that prompt action is vital and can help minimise loss.

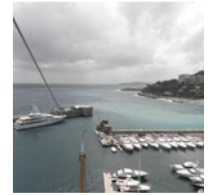

Where damage has been caused by a collision, grounding, fire, heavy weather or machinery breakdown MSI can provide a detailed damage assessment report, repair requirements, specifications and supervision as required.

Whatever the cargo we have the expertise and experience within our team to carry out surveys on a cause, nature and extent basis. We are also able to provide Risk Management reports for loss prevention purposes.

Our global network of surveyors provide 24/7 response to promptly attend an incident whatever the circumstances. Our team will have the necessary experience to assist the client in an appropriate manner.

Our Clients

- Underwriters
- Ship Owners
- P&I Clubs
- Yacht Owners
- Lawyers
- Shipyards
- Cargo Owners
- Salvors
- Port Authorities
- Oil Majors
- Finance Houses

Testimonials

We provide worldwide coverage

"I would like to say thanks for the assistance provided on the recent survey conducted by your surveyor on our vessel. The audit was of great value to us, and the way it was conducted was extremely professional, with a very prompt and thorough report. I was particularly impressed with the flexibility shown by your surveyor in terms of timing and scope of work. I would have no hesitation in using MSI again."

Thomas Hills, Reservoir Exploration Technology ASA (RXT)

"After over a decade working with Maritime Services International we still can't fault their professionalism, efficiency and quality of services"

Allan Norton, Lead Yacht Underwriters Ltd

"I always find Maritime Services' work to be of the highest professional standard. They are always on call and I would recommend their services without reservation"

Paul Surry, Reed Smith LLP, Solicitors

"The companies speed of response and technical expertise is why MSI are always my first choice in dealing with this type of casualty"

Carl Gill, Senior Claims Executive - British Marine

"Helpful personable staff, quick reaction to the request for assistance and sound professional advice clearly set out"

Paul Flowers, Claims Director, Charles Taylor and Co Ltd
